## Professional Summary

---

Junior Software Engineer with over 1 year of professional experience developing and maintaining corporate applications at Tata Consultancy Services. Proficient in React.js, Next.js, TypeScript, and OutSystems O11, with additional experience in Node.js, REST API integration, and agile methodologies. Eager to contribute to product-driven teams across frontend and fullstack roles.

## Experience

---

### Tata Consultancy Services

*Information Technology Analyst*

Londrina, PR, Brazil

*November 2025 – Present*

- Contribute to the development and maintenance of enterprise applications for Petrobras within a live OutSystems O11 production environment.
- Delivered new features for a document management system handling 100,000+ approved documents, receiving positive recognition from the Product Owner for quality and timeliness.
- Resolved production incidents and participated in module refactoring, ensuring system stability and continuity for a critical enterprise application.
- Collaborate within cross-functional agile squads operating in 2-week sprints with daily standups, sprint reviews, and close mentorship from senior engineers.

### Tata Consultancy Services

*Low-Code Development Intern — Bootcamp 2x2y*

Londrina, PR, Brazil

*May 2025 – November 2025*

- Completed an intensive low-code bootcamp covering OutSystems O11, OutSystems ODC, and Mendix, developing individual and team-based applications.
- Built functional prototypes integrating REST APIs, unit testing, and role-based access control, demonstrating full development cycle competency.
- Selected for a client-facing analyst position at TCS following performance evaluation by internal scouts.
